## TEN STEPS TO CREATE YOUR SPACE

GERN®

LAMINAM  
SUPERIOR NATURAL SURFACES

# LAMINAM PIONEERS FROM THE BEGINNING

Pioneering means  
discovering an unexplored  
world.

In the past it meant  
navigating to incredibly  
distant lands, delving into  
intricate rainforests.

Today the unexplored  
worlds are sometimes just  
outside the front door, or  
they come to visit us in our  
store.

These are the worlds we  
must learn to know as we  
are always open to new  
frontiers

## LEADING THE JOURNEY

Our daily life has  
profoundly changed, and  
we ourselves need to  
change with it, to adapt to  
its different needs.

In this perspective of  
transformation, we  
imagined 10 steps to  
accompany our customer,  
in a journey to discover  
Laminam, to continue to  
be ambitious pioneers of  
ceramic production.

# 1 TOP SPECIALISTS

**The heart of a home is its kitchen: the place where every journey has its departure and arrival.**

The GERN surfaces offer the choice between an extensive variety of finiture because the countertops are our first vocation: we were pioneers in bringing ceramics to the countertops of the kitchen.

Different styles and effects, from structured to bush-hammered, from Soft Touch to Polished, from Natural to Flamed, can be combined allowing anyone to create unique and personal design solutions.

Verde Alpi Bocciardato  
I NATURALI

GERN countertops enhance the chromatic and material harmony of the environments, to make the heart of every home refined and welcoming.

Verde Alpi Bocciardato  
I NATURALI

“ Our first vocation as  
pioneers: to make every  
kitchen unique ”

# 2 THE ITALIAN PRODUCT

When traveling, it reassures us to find something familiar.

Our style is nourished by an artisan tradition that has provided the roots for a process of technological and industrial innovation capable of establishing itself as an emblem of countertops design.

For GERN an identity philosophy, recognized and appreciated throughout the world because it is synonymous with aesthetic uniqueness and absolute quality.

The ambition to always strive towards perfection is what guides us: in the choice of materials, in the improvement of production processes, in the increasing the performances of our surfaces.

Statuarietto  
I NATURALI

“Artisan tradition,  
technological  
innovation. Inimitable.”

# 3 SUPERIOR PERFORMANCE GUARANTEED

When the journey promises to be long, you need strong and faithful companions.

GERN countertops, obtained with sustainable industrial processes, stand out for their superior performance compared to natural materials. They resist scratches and deep abrasions, as well as chemicals and detergents.

They are not afraid of heat and high temperatures, their structure remains stable without undergoing deformations and bending. Even with persistent and intense use, the aesthetic and physical properties remain unchanged.

It does not stain and cleans easily

25  
YEARS  
GUARANTEED

The quality of our products is demonstrated by the long duration of the guarantee: 25 years for all our surfaces used as kitchen countertops.

It resists the strongest stresses

“ Resistant and  
unalterable, they  
improve quality  
of your life ”

# 4 QUALITY EXCELLENCE AND ABSOLUTE HYGIENE

Every trip is an adventure, but there is no reason to give up safety.

Our countertops are totally compatible with food contact, as demonstrated by the MOCA and NSF certifications.

They have a surface that does not absorb, is easily cleaned and whose characteristics remain unchanged over time. In this way, mold, bacteria and fungi have no way to develop, guaranteeing total and thorough hygiene.

Bruno  
OSSIDO

Easy cleaning and  
maintenance

Igienic  
surfaces

Suitable for contact  
with food

Resistant to  
fungi and molds

MOCA

NSF

The most suitable solution for  
keeping the kitchen environment  
safe and hygienic.

Pietra Piasentina Taupe  
IN-SIDE

“Natural, bacteriostatic,  
for easy  
daily sanitization”

# 5 DOUBLE VOCATION: INDOOR & OUTDOOR

The journey is a discovery of new territories, outside traditional boundaries.

GERN surfaces are also ideal for your outdoor kitchen. Their aesthetic, durability and resistance characteristics are not affected even by the action of UV rays and atmospheric agents, nor in the case of strong temperature variations.

Bianco Statuario Venato  
I NATURALI

Even in outdoor environments, the characteristics of GERN surfaces demonstrate their full value.

Bianco Assoluto  
COLLECTION

“Unalterable and durable,  
even in the most  
extreme conditions”

# 6 TECHNOLOGICAL HEART, GREEN SOUL

The technological innovation that is the basis of GERN surfaces presupposes the choice of natural raw materials, selected with respect for the environment, thanks to which top quality, high performance products are obtained, always in line with sustainability criteria.

A constant push towards innovation without ever losing attention for the environment and humans.

“There is no true  
innovation without  
responsibility”

# IN-SIDE: THE EVOLUTION OF CERAMICS

The value of a trip is measured by the details it leaves in our memory.

Intense research activity has allowed Laminam to offer products with material continuity between mass, surface and edge.

It's the IN-SIDE technology, based on the mixing of raw materials with variable grain size, through which we achieve the nuances and the material blend typical of natural stones.

Pietra Piasentina Grigio  
IN-SIDE

In-Side expands the expressive potential of those who design the kitchen environment, providing surfaces wherewith create countertops with surprising material continuity.

Pietra Piasentina Grigio  
IN-SIDE

“Material continuity between  
mass, surface and edge to  
place no limits on creativity”

# 8 ONE BRAND LEADER IN THE WORLD

When we are the first to blaze a trail, the journey transforms us into pioneers towards new and unexplored lands.

For over twenty years Laminam has pursued excellence in the aesthetics and technology of ceramics, with a cutting-edge project and a competent and passionate team which have led it to be the undisputed point of reference in the kitchen worktop panorama of ceramic and architectural surfaces.

Calacatta Oro Venato  
I NATURALI

Our aesthetic and technological solutions come from the experience and the knowledge acquired, for elegant and high performance countertops destined to last over time.

“A partner with over twenty  
years of progress and  
innovation”

# 9 GERN EFFECT

Every trip is the combination of elements that make it a unique experience.

GERN Effect allows us to give concrete form to the creative imagination of the designer within each of us, through the combination of different materials and chromatic finishes, offered by GERN in multiple thicknesses, each of which is designed to make all the surfaces functional.

Calacatta Oro Venato  
I NATURALI

A chromatic and material harmony, made of contrasts and assonances, which makes each space a masterpiece, unique and identifying, of those who design it, live in it or work in it.

Calacatta Oro Venato  
I NATURALI

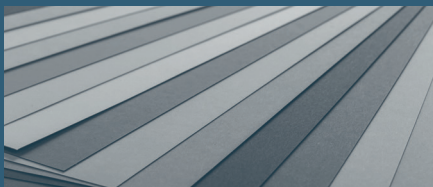

“ A wide range of  
surfaces and thicknesses to  
create a unique masterpiece ”
